EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Ives on 10/6/05.

The application has been amended as follows:

In the claims:

In claim 1 line 12 "grooves" has been changed to --groove--.

Drawings

The drawings were received on 7/13/05. These drawings are approved.

Allowable Subject Matter

Claims 1 and 3-5 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a syringe barrel being adapted to be mounted on a cylinder holder that comprises a flange insertion groove, the syringe barrel having the combination of a flange and a guide where the guide is a projection having a thickness that prevents it from fitting into the groove and an engagement of the projection and the cylinder holder inhibits rotation of the syringe barrel and the syringe can be mounted on the cylinder holder from a direction parallel

to the insertion groove. It is noted that the examiner agrees with applicant's statements regarding the prior art to Reilly. Other similar prior art is to Taylor (3,990,446), Armbruster (5,322,511) and Kranys (4,006,736) but none of these teach the combination above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
